DAVIT DVALASHVILI

Web Developer

Tel: +995 598 33 21 35   Email: davitdvalashvili1996@gmail.com   Address: №24 Kerchi street, Tbilisi, Georgia

SUMMARY

I am a Full Stack Developer, fueled by strong curiosity and dedication. I have swiftly acquired skills across various tech stacks, covering both front-end and back-end technologies. Driven by a passion for problem-solving and an intense desire for new challenges, I continuously strive to expand my knowledge and expertise. Now, I am enthusiastically pursuing new opportunities to utilize my skills in developing innovative, high-end, and user-friendly web applications.

PROJECTS

Invoice app

- Developed a user-friendly invoice application with **Next.js**, **Tailwind CSS**, and **MongoDB**.
- Implemented **CRUD operations**, status **filtering**, and **light/dark mode toggling**.
- Utilized **TypeScript** for enhanced reliability, scalability, and integrated **Framer Motion** for smooth animations.

Real Estate Web App

- Developed a real estate application using **React**, **Node.j**s, **Express**, and **Tailwind CSS**.
- Implemented secure user **authentication** via **email signup**, **Google login**, and profile management.
- Features include property listing, **search**, **sorting**, and image management; utilized **Mongoose** for data modeling and **Firebase** for backend services with **JWT** and **bcrypt** for authentication.

Entertainment Web App

- Entertainment web app with **Node.js**, **Express**, **Styled Components** for browsing, bookmarking, and **searching** media.
- Implemented full-stack features like **JWT**, **bcrypt authenticatio**n, profile management, and section navigation.
- Implemented **React Hook Form**, **Mongoose**, **TypeScript** for seamless, secure entertainment app UX.

MERN countries Api

- Developed **TypeScript** web app with **React**, **Express.js**, **MUI**, **Redux Toolkit** for country exploration and **filtering**.
- Integrated **Mongoose** for **MongoDB** modeling, enabled bordering country navigation and **light/dark** mode **toggling**.
- Implemented features to explore countries, **filter** by region, and view detailed info in a **TypeScript-based** web app.

MERN Todo App

- Developed feature-rich todo app with **React**, **Express**, and **MUI** for easy management (add, edit, complete, delete).
- Implemented **filters**, **sorting**, and **light/dark** mode **toggling** for enhanced user customization.
- Enhanced App with **Redux Toolkit** for state, **Framer-Motion**, **Mongoose** for data, **TypeScript** for functionality.

CERTIFICATES

FreeCodeCamp   Front End Development Libraries, JavaScript Algorithms and Data Structures.

CodeCademy   Learn Node.js Course, Learn Express, Learn MongoDB, Learn Redux Course.

Harvard University Course   CS50's Introduction to Computer Science.

TECH I LOVE

Html, CSS, JavaScript, TypeScript, React, Next.js Node.js, Express.js, MongoDB, Sass, Tailwind CSS, Styled-Components, Material-UI, Redux.

EDUCATION

Tbilisi state university   Master's Degree in economics   September 2019 to July 20121

Bachelor's Degree in international finance   September 2015 to July 2019
